Hi Abdullah,

We received the benches.

Thank you!

Rich

Hi Rich,

Could you please confirm that your office received the benches yesterday?

Thank you.

Good Morning Rich,

I'll get back to you regarding the benches by the end of this week. As far as the trees goes, could you please get back to up by June 8th?

Thank you.

On Fri, May 25, 2018 at 11:25 AM, Rich Sarian <Rich@hollywoodbid.org> wrote:

Hi Abdullah,

I wanted to follow up on this and see when we can expect to get those benches off your hands. I know it isn't urgent on our end, but we are here to help!

As for the trees, we're still waiting on our landscaper to finalize the plan. Is there a deadline of when we need to have these planted by? Let me know and we will try and make that happen asap.

Thank you!

Rich

Any time after 8:30am, M-F, is good for drop off and address is [6381 Hollywood Blvd., Los Angeles, CA 90028](#). Let me know when you can make this happen and I will facilitate the move with the building manager.

Thank you!

Thank you, Rich.

If you could please provide us with an address and location I could have our contractor coordinate the drop off day and time.

Thank you.

Hi Sean,

Forgive my lag in reply, but things have been crazy! We have our landscaper coming out next week to analyze our list and map to ensure ideal tree placement. I do know that we want a Canary Island palm in the well on the northwest corner of Hollywood and Vine. I will let you know as soon as possible as to which trees we want where.

As for the benches, when would be a good time to coordinate dropping them off at the property we have secured?

Thank you and let me know so that we can make these arrangements.

Rich

Good morning Rich,

I wanted to follow up on a few items from our past meeting regarding the pedestrian improvement project at Hollywood:

- Available tree wells: Do you have a list or map of available tree wells where you'd like us to plant our trees? I have identified several wells along Hollywood and some of the cross streets. If you have a list of priority wells that the BID would like to have occupied, we need that information soon. I could work with an address list, or even a screenshot of google maps with these wells called out with arrows.

- Benches: During the meeting, we discussed delivering 3 benches to BID in lieu of installation. Can you let us know where to drop off these benches?

Thank you Rich,

Sean

Good morning Rich,

Regarding your question about the height of the palm trees, the 36" box Palm trees are typically 8' in height. This is a typical height according to a nursery.

Hi Rich, it was a pleasure meeting you today!

For this contract project, there are 50 proposed tree plantings, 14 of which are palm trees. The species is a mix of several varieties including Maidenhair Tree, Queensland Pittosporium, Chinese Pistache, Golden Trumpet, Mexican Fan Palm, and Canary Island Palm.

We will work your priority tree well list to get these trees into Hollywood. The contractor is on board to go ahead with new locations, but they need the specific locations pointed out, so the list or map that you can provide will be essential for me to mark up our landscaping sheets with new locations.

Thank you Rich!

Absolutely. What's the number of trees you have to be planted? We have a priority list of wells that we'd like to plant first and I need to go through that and send you a map of which tree wells we want planted.
